DETAILED ACTION

Claim Objections

1. Claims 5-17 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 5-17 are not been further treated on the merits.

Note: Claims 4-5, 15-16 are a multiple dependent claim. However, multiple dependent claims 5 and 15-16 depend on multiple dependent claim 4. Claims 6-14 are objected to under 37 CFR 1.75(c) as being in improper form because they directly or indirectly depend on improper multiple dependent claim 5. Claim 17 is objected to under 37 CFR 1.75(c) as being in improper form because they directly or indirectly depend on improper multiple dependent claim 16.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 4-17 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Art Unit: 1765

In claim 3 and claim 4, applicants disclose the step of depositing additional extruded sheets (20b, ...20n) on the first sheet (20a). However in line 11-12 of claim 4, applicants recites a contradict limitation "applying said second plate (30) on the last sheet (20a, 20b,...20n)" (emphasis added). Applicants clearly defines that the first sheet is labeled with reference number (20a) and the additional sheet (20b, ...20n) is deposited after the first sheet (20a). Therefore, it is impossible for the first sheet (20a) become the last sheet if additional sheets (20b, ..20n) are deposited over the first sheet (20a).

Claims 5-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement because they directly or indirectly depend on claim 4.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 2 of claim 1, the phrase "of the type" is subjective and indefinite. It is unclearly from the claim what specific type that applicants wish to claim.

In line 17 of claim 1 the phrase "the material thereof" (in the phrase "so as to eliminate the material thereof") lacks antecedent basis. There are several different materials in the claim (electro-conductive material and dielectric substrate material).

Therefore, it is unclear what specific material that applicants wish to refer as "the material thereof".

In lines 19-20 of claim 1, the examiner does not understand the limitation "giving several finished tracks (13) isolated from each other as a result". It is unclear from the what specific result that applicants wish to claim

In line 19 of claim 4 the phrase "the material thereof" lacks antecedent basis for the same reason as discussed above.

In claims 1-4 the term "first sheet" lacks antecedent basis. The examiner suggests applicant replacing "first sheet" with --first heated sheet-- as defined in line 27 of claim 1.

Claims 2-17 are indefinite because they directly or indirectly depend on indefinite claim 1.

Allowable Subject Matter

5. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. Claim 2-3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See Notice of References Cited (PTO 892 form).
